Up C Button:	Moves Turok forward
Down C Button:	Moves Turok back
Right C Button:	Moves Turok right
Left C Button:	Moves Turok left
Start:	Pause

Tips and Tricks

Map: Press the L Button to bring up the Map Screen. The Map screen will be superimposed over your regular screen. The map is helpful in keeping track of areas you've already been in, plus letting you know where there are areas that can be dropped down into or even hidden pathways. If you get lost, give the L button a whack to get back to your journey.
